Mr. Richard Buchan, Chair
Yukon Utilities Board
Box 31728
Whitehorse, Yukon Y1A 6L3

Dear Mr. Buchan:

Re: Yukon Energy 2021 General Rate Application – Round 1 Interrogatory Responses

Please find attached Yukon Energy's round 1 interrogatory responses (IRs) for its 2021 General Rate Application proceeding.

For the purposes of this filing, Yukon Energy is providing a separate package for the responses to questions from each intervenor (excluding certain large attachments that cannot be transmitted electronically). As early as possible the week of March 8th, Yukon Energy will provide the Board with a full consolidation on a physical storage device for posting to the YUB proceeding website; the consolidation will include:

1. Full responses to all questions including hyperlinks where IR responses reference other questions;
2. Excel files for responses that reference Excel attachments with calculations; and
3. All referenced attachments.

It is also noted that the UCG IR responses were re-numbered to correspond with the IR formatting/ numbering used for other intervenor questions. A concordance table is attached.

The following is also noted regarding the IR responses provided:

- Responses to capital projects have in many instances provided updates to timelines (e.g., YUB-YEC-1-65) and costs (e.g., YUB-YEC-1-49) based on 2020 preliminary actuals and other updated information.
- On IPPs, responses highlight considerable uncertainty as to when IPPs will start to provide energy and YEC will be required to start incurring costs. In light of this ongoing uncertainty, YEC has proposed that the compliance filing reflect information available at that time. In

addition, YEC proposes that a deferral account be established to deal with any changes after the compliance filing approval.

If you have any questions regarding the above please call.

Yours truly,

Ed Mollard
Chief Financial Officer
