**Subject:** Re: Cost Application to the YUB

Ms. Lemke,

I was unable to respond to your email of July 18, 2007 as I left Whitehorse early in the morning on that day to attend a family funeral in Ontario. I did not return to Whitehorse until late at night on July 27, 2007.

I consider that all my cost claims relate to the PPA proceedings as it is the PPA that determines whether or not the CSTP is financially viable and thus could proceed.

Any further delay in issuing a YUB Order on the award of intervenor costs appears totally unwarranted. Please get on with it!

Regards:

Peter Percival, P. Eng.
