Dear Ms. Baltgailis:

Re: YEC Responses to Mayo B Information Requests

The Yukon Utilities Board is in receipt of the Yukon Conservation Society's correspondence of March 16, 2010. In that correspondence, the Yukon Conservation Society made reference to the Yukon Utilities Board proceeding currently underway with respect to the Yukon Energy Corporation's proposed Mayo B hydro enhancement project. The Yukon Conservation Society sought guidance from the Board concerning recent media reports which indicate that the Yukon Energy Corporation has entered into contracts pertaining to the construction of the Mayo B hydro enhancement project.

In response to your query I can advise that the Yukon Utilities Board will make its recommendations on the Mayo B project based on the evidence and submissions made by the parties to the proceeding currently underway.

Sincerely,

Bruce McLennan

Chair
