Re: Quarterly Adjustment to Secondary Sales Rates as of April 1, 2016

Pursuant to Rate Schedule 32 Secondary Energy (as approved in Board Order 2005-12), the following sets out the quarterly adjustment to the Secondary Energy rate effective for consumption on or after April 1, 2016.

April 1, 2016 Rate Determination

As outlined in Rate Schedule 32, the Secondary Energy rate for April 1, 2016 is based on the published Yukon Territorial Government – Bureau of Statistics biweekly price for Furnace Oil in Whitehorse for the three reporting periods prior to the 20th day of February 2016. The lowest value of the three (net of GST) is the “Oil Price Index”. The three reported values (including GST) are as follows:

January 20, 2016 = \$ 0.866 /litre
February 3, 2016 = \$ 0.851 /litre
February 17, 2016 = \$ 0.827 /litre

Consequently the Oil Price Index for the April 1, 2016 rate is 78.76 cents/litre (the February 17, 2016 value of 82.70 cents/litre less the GST included in that value). An Oil Price Index of 78.76 cents/litre equals a Secondary Energy price of 5.5 cents/kW.h (compared to the January 1, 2016 revised price of 6.8 cents/kW.h) and results in a Rate Schedule 43 Wholesale Secondary energy price of 4.4 cents/kW.h (compared to the January 1, 2016 revised price of 5.7 cents/kW.h).

Notification of Interested Parties

Rate Schedule 32 provides that the Secondary Energy Charge is to be filed with the Board at least 30 days in advance of the Rate Period. As with past notifications regarding the rate change, Yukon Energy is providing notice to ATCO Electric Yukon (AEY) at the same time as this notice is sent to the Board. The updated Rate Schedule 32 rate sheet will also be posted on Yukon Energy's website. Secondary Retail customers will be notified by a billing advisory message on their monthly bill when their retail account is actively in service.

Current Status of Secondary Sales

Secondary Sales for non-SCADA connected customers have been terminated since September 1, 2015 due to insufficient surplus hydro. A reduced availability of secondary sales is expected for 2016 due to capital work taking place at Aishihik generation station from June through October.

Sincerely,

Ed Mollard
Chief Financial Officer
