Re: Quarterly Adjustment to Secondary Sales Rates as of January 1, 2015

Pursuant to Rate Schedule 32 Secondary Energy (as approved in Board Order 2005-12), the following sets out the quarterly adjustment to the Secondary Energy rate effective for consumption on or after January 1, 2015.

January 1, 2015 Rate Determination

As outlined in Rate Schedule 32, the Secondary Energy rate for January 1, 2015 is based on the published Yukon Territorial Government – Bureau of Statistics biweekly price for Furnace Oil in Whitehorse for the three reporting periods prior to the 20th day of November 2014. The lowest value of the three (net of GST) is the “Oil Price Index”. The three reported values (including GST) are as follows:

October 15, 2014 = \$ 1.271 /litre
October 29, 2014 = \$ 1.263 /litre
November 12, 2014 = \$ 1.263 /litre

Consequently the Oil Price Index for the January 1, 2015 rate is 120.29 cents/litre (the November 12, 2014 value of 126.30 cents/litre less the GST included in that value). An Oil Price Index of 120.29 cents/litre equals a Secondary Energy price of 8.4 cents/kW.h (compared to the October 1, 2014 revised price of 8.9 cents/kW.h) and results in a Rate Schedule 43 Wholesale Secondary energy price of 7.3 cents/kW.h (compared to the October 1, 2014 revised price of 7.8 cents/kW.h).

Notification of Interested Parties

Rate Schedule 32 provides that the Secondary Energy Charge is to be filed with the Board at least 30 days in advance of the Rate Period. As with past notifications regarding the rate change, Yukon Energy is providing notice to ATCO Electric Yukon (AEY) at the same time as this notice is sent to the Board. The updated Rate Schedule 32 rate sheet will also be posted on Yukon Energy's website. Secondary Retail customers will be notified by a billing advisory message on their monthly bill when their retail account is actively in service.

Current Status of Secondary Sales

Secondary Sales were made available effective June 19, 2014 and were terminated for non-SCADA connected customers effective November 12, 2014 due to insufficient surplus hydro.

Sincerely,

Hector Campbell, P.Eng, MBA.
Director, Resource Planning & Regulatory Affairs
