**Re: Quarterly Adjustment to Secondary Sales Rates as of October 1, 2014**

Pursuant to Rate Schedule 32 Secondary Energy (as approved in Board Order 2005-12), the following sets out the quarterly adjustment to the Secondary Energy rate effective for consumption on or after October 1, 2014.

***October 1, 2014 Rate Determination***

As outlined in Rate Schedule 32, the Secondary Energy rate for October 1, 2014 is based on the published Yukon Territorial Government – Bureau of Statistics biweekly price for Furnace Oil in Whitehorse for the three reporting periods prior to the 20<sup>th</sup> day of August 2014. The lowest value of the three (net of GST) is the “Oil Price Index”. The three reported values (including GST) are as follows:

July 23, 2014 = \$ 1.347 /litre  
August 6, 2014 = \$ 1.347 /litre  
August 20, 2014 = \$ 1.344 /litre

Consequently the Oil Price Index for the October 1, 2014 rate is 128.00 cents/litre (the August 20, 2014 value of 134.40 cents/litre less the GST included in that value). An Oil Price Index of 128.00 cents/litre equals a Secondary Energy price of 8.9 cents/kW.h (compared to the July 1, 2014 revised price of 8.9 cents/kW.h) and results in a Rate Schedule 43 Wholesale Secondary energy price of 7.8 cents/kW.h (compared to the July 1, 2014 revised price of 7.8 cents/kW.h).

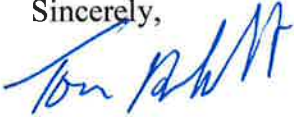

***Notification of Interested Parties***

Rate Schedule 32 provides that the Secondary Energy Charge is to be filed with the Board at least 30 days in advance of the Rate Period. As with past notifications regarding the rate change, Yukon Energy is providing notice to ATCO Electric Yukon (AEY) at the same time as this notice is sent to the Board. The updated Rate Schedule 32 rate sheet will also be posted on Yukon Energy's website. Secondary Retail customers will be notified by a billing advisory message on their monthly bill when their retail account is actively in service.

***Current Status of Secondary Sales***

YEC advised AEY that Secondary Sales were available effective June 19, 2014. YEC will monitor hydro availability and will likely suspend Secondary Sales towards the end of October due to insufficient surplus hydro.

Sincerely,
