YEC GRA Proceeding

All Parties:

Re 2012-13 Yukon Energy Corporation General Rate Application

In response to recent inquiries from interested parties regarding the YEC GRA proceeding, the Board provides the following information.

As indicated in Board Order 2011-13, Appendix A, the Board is currently undergoing a review of its Rules of Practice and Scale of Costs. The Board has committed to providing an opportunity for interested parties to review and comment on the revised Rules of Practice prior to final approval by the Board. The resulting new Rules of Practice and the revised Scale of Costs will apply to the current YEC GRA proceeding.

Further, the Board also considers it to be reasonable for Intervenors to expect to recover costs and disbursements for one of their respective consultants to attend the May 30, 2012 YEC Workshop.

Finally, as indicated in point 4 of Board Order 2012-03, the Board will be establishing a process pertaining to the request for an interim refundable rate rider, Rider J. Parties will be advised of the established process in due course.

Sincerely,

Bruce McLennan
Chair
