YEC 2012 GRA Proceeding

All Parties:

Re UCG Correspondence re Board Order 2012-08

The Yukon Utilities Board (Board) is in receipt of the August 23, 2012 correspondence from Utilities Consumers' Group (UCG) regarding Board Order 2012-08.

In UCG's correspondence, UCG requests clarification on two matters:

1. UCG would like to confirm with the Board that when it submits its IR responses on September 13, 2012, YEC will be expected to provide a consolidation of all responses to IRs submitted in this proceeding. To control the size of this consolidated file as much as possible, UCG submits that the Board may want to consider allowing YEC to insert hyperlink connections to referenced / connected IR responses within this consolidated file; and
2. UCG would appreciate clarification from the Board on whether the Board expects a Phase II application to be filed with respect to the recovery of YEC's revenue requirements for the years 2012 and 2013.

Although it is clear in Board Order 2012-08, the Board confirms its direction that YEC is to provide all references when submitting its responses to the second round of IRs and those IRs from the first round to which the Board directed YEC provide better and adequate answers. All references within the information response should be provided either by copying and pasting the referenced information response or via hyperlink.

Regarding UCG's second point, at this time, the Board considers that no benefit will accrue to customers in the filing of a Phase II application. To be effective, such applications should be filed jointly by YEC and YECL when there are no Orders-in-Council in force providing rate direction for all rate adjustments for retail customers and major industrial customers.

Sincerely,

Bruce McLennan
Chair
