**IN THE MATTER OF YUKON ENERGY AND THE APPLICATION
FOR ESCALATION OF RATE SCHEDULE 39 DEMAND AND
ENERGY CHARGES**

A proceeding before the

YUKON UTILITIES BOARD

December 2010 to March 2011

**REPLY ARGUMENT OF JOHN MAISSAN
LEADING EDGE PROJECTS**

Requested Approvals

1. Escalate Rate Schedule 39 Demand and Energy charges.

With regard to the requested approvals, Leading Edge continues to be of the view that it is appropriate that Yukon Energy's request be approved.

Other Matters

UCG in its Argument clearly articulated a number of concerns with respect to the Industrial Rate Schedule 39 and the interpretation and application of OICs 1995/090 and 2007/149 to this rate schedule. The implications for the non-industrial customer rate classes have the potential to be significant. Leading Edge identified many of these same issues to be of concern in its letter of January 10, 2011, and shares many of the concerns raised by UCG in its Argument. However, Leading Edge's interpretation of Board Order 2011-02 is that these issues cannot be addressed in this proceeding.

Leading Edge agrees with the UCG characterization that these are important issues, and Leading Edge continues to believe that they must be addressed in an appropriate forum (as determined by the Board) in the near future.

Respectfully submitted,

John Maissan
