Attention: Shay Smart, Board Secretary

Re: UCG Intervenor Application for Yukon Energy and Alexco PPA

Dear Shay:

The Utilities Consumers' Group, pursuant to Board Order 2010-11, hereby applies for intervenor status in the above proceeding.

UCG will be representing residential and small business consumers of the Yukon. We plan to fully participate in this process, submitting IR's and written argument.

Our main focus will be to ensure a fair electrical costs be allocated to Alexco, so that **Yukon** ratepayers benefit from these sales:

1. Ensuring they pay a secure monthly/yearly rate for requested energy purchase regardless if they use less than called for in any particular month/or year;
2. Ensuring they pay premium rates for all energy above this set requested amount;
3. Ensuring they pay premium rates for any space heating requirements;
4. Ensuring they pay premium rates for peak load requirements;
5. Ensuring they pay their share of any diesel usage on the grid;
6. Ensuring they pay their share of subsidizing non-hydro communities like all other ratepayer groups;
7. Ensuring they pay for their part in Mayo B if they request more power into the future;
8. Ensuring all electrical motors, pumps etc. in use are energy efficient quality; and
9. Other matters of concern to our respective ratepayers.

Yours truly,

Roger Rondeau
Utilities Consumers' Group
