

ATCO Electric

YUKON

May 26, 2017

Yukon Utilities Board
Box 31728
Whitehorse, YT Y1A 6L3

Attention: Mr. Robert Laking
Vice Chairman

Dear Sir:

**RE: ATCO Electric Yukon (AEY)
2016-2017 General Rate Application Compliance Filing**

Please find attached ATCO Electric Yukon (AEY)'s 2016-2017 GRA Compliance Application relating to the YUB's Board Order 2017-01.

Should you have any questions with respect to the enclosed, please contact the undersigned at (780) 420-5432.

Yours truly,

Original Signed by:

Corinne Severson
Director, Regulatory

2016-2017 General Rate Application Phase I Compliance Filing – Board Order 2017-01

1 Overview

2 In addition to the responses to the Board Directions in Board Order 2017-01, ATCO Electric
3 Yukon (AEY) has provided a reconciliation of the applied for Revenue Requirement (per the
4 Updated Filing dated October 24, 2016) to the approved Revenue Requirement as a result of
5 Board Order 2017-01. This full reconciliation is included as Attachment 1 (2016) and
6 Attachment 2 (2017) and summarized in the tables below.

	2016	2017
	(\$000s)	
Applied for Tariffs per Updated Filing	52,328	55,047
Total Adjustments per Board Order 2017-01	(257)	(188)
Refiling Update	52,071	54,859

7 AEY has included a full set of Schedules, inclusive of the associated Schedule 12.1 and
8 Schedules 12.2 and 12.3 deriving the Rate Adjustment Rider R and Fuel Rider F as a result of
9 this compliance filing. The derivation of the Rate Adjustment Rider R and the Fuel Rider F is
10 consistent with the approach used in the 2013-2015 GRA Compliance Filing.

11 Approvals Requested

12 AEY requests the following final rate approvals:

- 13 1) Approval to set Rider R the Rate Adjustment Rider to 7.67%, to be in effect for
14 consumption from July 1, 2017, to December 31, 2017 to collect the remaining 2016 and
15 2017 net revenue shortfall as shown in Attachment 5; and
- 16 2) Approval to set Rider R to 8.30% as the Rate Adjustment Rider for consumption on or
17 after January 1, 2018 as shown in Attachment 6.

18 Regarding the 2016/17 Rate Adjustment Rider, AEY respectfully requests a decision on this
19 Compliance Filing by June 26, 2017 in order to implement the rider on July 1, 2017.

2016-2017 General Rate Application Phase I Compliance Filing – Board Order 2017-01

1 Rider R – Rate Adjustment Rider

2 On May 11, 2016, AEY submitted its 2016-2017 GRA. Included in the GRA was an application
3 for an Interim Rate Adjustment Rider, Rider R, of 11.62% to collect 50% of the difference
4 between 2016 forecast revenue from existing rates and the proposed 2016 Revenue
5 Requirement, amounting to \$1,218,000. In Board Order 2016-02, dated July 1, 2016, the
6 YUB approved Rider R as filed and it was implemented for all retail customer bills beginning
7 July 1, 2016.

8 Board Order 2017-01, dated April 27, 2017 directed AEY to provide a Compliance Filing within
9 30 days with directions in Appendix A. After complying with the Board directions, the revenue
10 difference for 2016 is a surplus of \$283,000. The revenue shortfall for 2017 is \$620,000. Please
11 refer to Schedules 12.1 and 12.2, Line 4, of the Compliance Filing.

12 After adjusting for Rider R revenue collected from July 1, 2016 – June 30, 2017, and factoring in
13 fuel variance transfers, the remaining revenue shortfall for 2016 and 2017 is \$122,000. Please
14 refer to Line 21 of Schedule 12.1.

15 AEY proposes to collect this shortfall from all retail customers, excluding Secondary Energy
16 Rate 32 and Wholesale Rates 42 and 43, from July 1, 2017 until December 31, 2017 by setting
17 Rider R to 7.67%. Please refer to Schedules 12.1 and 12.3 for the detailed calculations.

18 Customers' bill impacts from the proposed 2017 Rider R change are shown in Table 1 below.
19 Dollar amounts shown include all riders and taxes.

20 **TABLE 1: HYDRO NON-GOVT – MONTHLY BILL IMPACT EFFECTIVE JULY 1, 2017**

CUSTOMER GROUP	COST INCREASE/(DECREASE)	PERCENT INCREASE/(DECREASE)
RESIDENTIAL 800 KWH	(\$4.42)	(4.2%)
COMMERCIAL 1000 KWH, 5 KW	(\$5.68)	(3.5%)

2016-2017 General Rate Application Phase I Compliance Filing – Board Order 2017-01

1 **Ongoing Rate Adjustment Rider R**

2 The proposed Rate Adjustment Rider, Rider R, beginning January 1, 2018, is 8.30% and will
3 remain in place until the next GRA. Please refer to Schedule 12.2 for the detailed calculations.

4 Customers' bill impacts from the proposed Rider R change are shown in Table 2 below. Dollar
5 amounts shown include all riders and taxes and assume the proposed 2017 Rider R rate of
6 7.67% is approved.

7 **TABLE 2: HYDRO NON-GOVT – MONTHLY BILL IMPACT EFFECTIVE JANUARY 1, 2018**

CUSTOMER GROUP	COST INCREASE/(DECREASE)	PERCENT INCREASE/(DECREASE)
RESIDENTIAL 800 KWH	+\$0.71	+0.7%
COMMERCIAL 1000 KWH, 5 KW	+\$0.91	+0.6%

8 **Rider F**

9 Fuel Adjustment Rider (Rider F) collections from customers of \$1,659,000 from January 1, 2016
10 to December 31, 2016, and \$823,000 from January 1, 2017 to June 30, 2017, totaling
11 \$2,482,000, were included in the determination of the Rate Adjustment Rider R. This effectively
12 resets the base fuel prices and heat rates to be used in determining the Rider F shortfall/surplus
13 balance beginning January 1, 2016. The amount transferred to Rider R is the difference
14 between the fuel variance using 2013-2015 GRA approved fuel prices and heat rates, and the
15 fuel variance using 2016-2017 GRA fuel prices and heat rates. Schedule 12.3 shows the
16 projected Rider F balance to June 30, 2017. All future calculations relating to Rider F will utilize
17 the approved fuel prices and heat rates as the base.

2016-2017 General Rate Application Phase I Compliance Filing – Board Order 2017-01

1 Responses to Board Directions

2 Direction #1

3 *The Board notes AEY's submission that, "Had AEY not revised its*
4 *methodology... AEY's sales would have varied by more than 1.1% when*
5 *compared to actuals, as of September 2016." Given these submissions on the*
6 *2016 and 2017 numbers, the Board understands that the acknowledged*
7 *differences using the old or new methodologies would not be significant.*
8 *Considering the above, AEY has not satisfied the Board that its proposed*
9 *methodology with respect to using three years for regressing data and*
10 *normalizing HDD, as well as using the 2013 to 2015 growth rates to derive the*
11 *forecast UPC, should be adopted. The Board accepts AEY's position that 15 or*
12 *20 years may be too long of a timeframe to use in calculating energy sales but it*
13 *is not convinced that three years is correct for regressing data and normalizing*
14 *HDD. AEY provided testimony during the course of the hearing that ATCO Gas*
15 *uses a 10-year timeframe for normalizing over the years to represent more*
16 *current data. Accordingly, the Board directs AEY, in its compliance filing, to refile*
17 *its sales and revenue forecast, incorporating its prior methodology using a*
18 *10-year timeframe for UPC regression and normalizing HDD. (Paragraph 40)*

19 **AEY Response:**

20 Please refer to Attachment 3 for the details of adjustments made to the sales forecasts for
21 2016-2017, and the resulting impact on the Purchase Power and Fuel costs forecast for the test
22 period.

2016-2017 General Rate Application Phase I Compliance Filing – Board Order 2017-01

1 **Direction #2**

2 **(Inclusive of other Board direction regarding FTE not included on summary)**

3 *Regarding the existing financial analysts, the Board notes that the reasoning AEY*
4 *provided for this change in the supervision of these two positions was to have these*
5 *analysts more tightly tied to northern operations and northern communities, as*
6 *opposed to the previous reporting structure. AEY added that those positions work*
7 *solely for AEY. This rationale is not accepted by the Board because it is unclear how*
8 *this supervisor position, which is to be based in Yellowknife, is to supervise the work*
9 *of financial assistants who are based in the Yukon and whose work is carried out*
10 *entirely in the Yukon, when these positions previously reported to a position that was*
11 *tied to AEY operations. Further, AEY has not demonstrated that the other primary*
12 *function (accounts payable and accounts receivable duties) identified for the*
13 *Supervisor, Business Support Services, cannot be completed by staff at AEY.*
14 *Additionally, AEY has not provided any explanation of why the supervisory duties of*
15 *the Supervisor, Business Support Services could not be carried out by any of the*
16 *existing accounting positions within AEY. Therefore, the Board concludes that the*
17 *need for the Supervisor, Business Support Services position has not been justified*
18 *and directs the position be removed from AEY's complement. (Paragraph 76)*

19 ...

20 *Therefore, AEY's requested approval for a complement of 70.38 FTEs for both test*
21 *years is not approved. The Board approves a complement of 68.13 FTEs. The*
22 *complement level of 68.13 FTEs is determined by removing the Engineering*
23 *Technologist position (1 FTE), the Supervisor, Business Support Services position*
24 *(0.25 FTE), and the Corporate/Operational Accountant position (1 FTE) as directed*
25 *in the 2013-2015 GRA. AEY is to reflect this finding in its compliance filing to this*
26 *decision. (Paragraph 79)*

27

2016-2017 General Rate Application Phase I Compliance Filing – Board Order 2017-01

1 **AEY Response:**

2 As directed, AEY has reduced its forecast FTE complement in Revenue Requirement by
3 2.25 FTEs by eliminating the following positions as directed on Paragraph 79 of Board Order
4 2017-01:

- 5 · Engineering Technologist (1 FTE) – This position is intended to manage the mechanical
6 aspect of projects. This would include design, specification and tender of bid packages
7 for projects. The position would also aid in project monitoring for quality assurance, cost
8 control, technical reporting and final commissioning of projects.
- 9 · Operational Accountant (1 FTE) – This position replaced the Business Analyst position
10 and provides financial support for the capital and operational staff. This would include
11 forecast and budget preparation and management as well as additional support for
12 increasing regulatory and audit requirements.
- 13 · Supervisor, Business Support Services (0.25 FTE) – This position oversees the
14 Financial Assistants as well performs accounts payable and accounts receivable duties
15 previously done by the Financial Analyst. In addition, this position performs general
16 business support services that were previously performed by the Executive Assistant
17 position.

18 The resulting decrease in O&M due to the removal of the labour and fringe costs for these
19 positions is \$172,000 for 2016 and \$177,000 for 2017. In addition, the removal of these
20 positions also resulted in a reduction to Total Capital Expenditures (Schedule 9.1, line 28) and
21 Capital Additions to Rate Base (Schedule 9.1, line 31) of \$11,000 for 2016 and \$12,000 for
22 2017.

23 In addition, AEY notes the Board's concerns cited on Paragraph 78 of Board Order 2017-01:

24 *“In Board Order 2014-16 [sic], AEY was directed to remove the corporate*
25 *accountant position (1 FTE). It did not do so and did not request a review and*
26 *variance of that direction. To continue the position or rename the position as*
27 *an Operational Accountant ignores the direction and concerns of the Board.”*

2016-2017 General Rate Application Phase I Compliance Filing – Board Order 2017-01

1 The Corporate Accountant position was removed from revenue requirement for the 2013-2015
2 Test Period in the Compliance Filing¹ as directed. AEY also notes that the Board stated on page
3 20 of Board Order 2014-06:

4 *“...the Board does not know, and will not speculate on, which positions are*
5 *more important or necessary to the Applicant. In the Board’s view, the*
6 *Applicant knows best how to allocate and optimize its human capital*
7 *resources.”*

8 AEY agrees with the Board’s statement which confirms that it is within AEY’s purview to
9 determine what resources it needs and how it allocates those resources to deliver services to
10 customers even if the resources required are greater than what the Board approved and
11 customers are being charged for. Therefore, while AEY removed the FTEs in setting the
12 revenue requirements, the position was maintained as it was necessary to deliver the required
13 level of service to its customers.

14 **Direction #3**

15 *As a result, for out-of-scope employees, the Board awards for 2016, a labour inflation*
16 *increment of 0.0 percent because out-of-scope employees did not receive inflationary*
17 *increments. AEY is directed to reflect this change in its compliance filing to this*
18 *decision. (Paragraph 90)*

19 **AEY Response**

20 AEY has reduced its assumed labour inflation rates as follows:

	In Scope	Out of Scope
2016	3.25%	0.00%
2017	1.90%	1.90%

21 The resulting decrease in O&M due to the reduction of labour inflation rates is \$23,000 in 2016
22 and \$68,000 in 2017. In addition, the change in labour inflationary assumptions also resulted in

¹ 2013-2015 Phase I General Rate Application Compliance Filing –Response to Direction #4 page 8.

2016-2017 General Rate Application Phase I Compliance Filing – Board Order 2017-01

1 a reduction to Total Capital Expenditures (Schedule 9.1, line 28) and Capital Additions to Rate
2 Base (Schedule 9.1, line 31) of \$14,000 for 2016 and \$40,000 for 2017.

3 **Direction #4**

4 *For these reasons the Board approves a 2017 labour inflation rate for in-scope and*
5 *out-of-scope employees of 1.9 percent. AEY is directed to reflect this change in its*
6 *compliance filing to this direction. (Paragraph 94)*

7 **AEY Response**

8 Please refer to the response for Direction #3.

9 **Direction #5**

10 *The Board notes that AEY provided the May 2016 Yukon Economic Outlook in an*
11 *IR response. In that document, the CPI forecast for Whitehorse for 2016 was*
12 *2.0 percent and just under 2.0 percent for 2017. The Board accepts the information*
13 *provided in the May 2016 Yukon Economic Outlook because it is the most up-to-date*
14 *information on inflation in Yukon on the record. Accordingly, the Board sets the Other*
15 *Inflation rate for 2016 at 2.0 percent and at 1.9 percent for 2017. AEY is directed to*
16 *reflect this change in its compliance filing to this decision. (Paragraph 105)*

17 **AEY Response**

18 AEY has updated the non-labour inflation assumptions to 2.0% for 2016 and 1.9% for 2017. The
19 resulting decrease in O&M is \$8,000 in 2016 and \$20,000 in 2017. In addition, the change in
20 labour inflationary assumptions also resulted in a reduction to Total Capital Expenditures
21 (Schedule 9.1, line 28) and Capital Additions to Rate Base (Schedule 9.1, line 31) of \$24,000 for
22 2016 and \$36,000 for 2017.

23

2016-2017 General Rate Application Phase I Compliance Filing – Board Order 2017-01

1 **Direction #6**

2 *The Board does not accept AEY's submissions that, when considering trends, the*
3 *total level of O&M costs should be considered or that the review should be limited to*
4 *those areas with cost variance at the account level. Because of this, the Board*
5 *believes that a review should be undertaken at the function level for variances in*
6 *trends, as an inter-relationship between accounts within a function may exist. These*
7 *inter-relationships may result in misleading trends. Further, at the function level, each*
8 *function is independent; unless a link is specifically demonstrated, the cost causation*
9 *in one function does not necessarily lead to cost causation in another function. As a*
10 *result, the Board directs AEY in its compliance filing and in future GRAs to provide a*
11 *labour schedule showing total labour costs as well as a breakdown of those labour*
12 *costs into capital and each of the O&M and A&G functions. This labour schedule is to*
13 *be provided for each of the test years and the three years prior to the test period. The*
14 *prior periods will show a labour comparison between forecast and actual.*
15 *(Paragraph 123).*

16 **AEY Response**

17 Please refer to Attachment 4 for a breakdown of labour cost into capital and each of the O&M
18 and A&G functions.

19 **Direction #7**

20 *The Board directs AEY to provide a schedule in future GRAs similar to Attachment 1 to*
21 *CW-YECL-14, showing labour, fringe and other, comparing actual to approved or forecast*
22 *levels. The Board also directs that the variance explanations provided in Schedule 5.2 be*
23 *provided at the labour, fringe and other levels for all future GRAs. (Paragraph 124)*

24 **AEY Response**

25 AEY will address this direction in future GRAs.

2016-2017 General Rate Application Phase I Compliance Filing – Board Order 2017-01

1 **Direction #8**

2 *In YUB-YECL-42, AEY was asked to explain the increases in each of the General*
3 *Accounts (Accounts 88800 and 88900). AEY provided an explanation for Accounts*
4 *88800 and 88900 in aggregate but did not provide an explanation for each account*
5 *individually. In YUB-YECL-42, AEY did provide an explanation for \$32,000, which is*
6 *the total variance. AEY stated in the Application that, “Ongoing operational and*
7 *administrative activities are based on historic spending requirements which are then*
8 *adjusted for known changes in work to be completed in the forecast period.”*
9 *However, the Board finds that \$14,000 of the increase from 2015 to 2016 has not*
10 *been sufficiently explained. In this case, using inflation and a three-year average of*
11 *costs is duplicative as no specific programs or needs have yet been identified.*
12 *Therefore, the Board directs that the \$14,000 be removed from the 2016 forecast*
13 *value of “Other” for the aggregate of these accounts (88800 and 88900), with \$7,000*
14 *being removed from Account 88800 and \$7,000 being removed from Account 88900.*
15 *The revised balance approved by the Board for 2016 “Other” (Account 88800) is*
16 *\$47,000, and the 2017 balance for “Other” (Account 88800) is \$44,000.*
17 *Both balances are subject to changes in the Board-approved inflation rates. AEY is*
18 *directed to reflect these changes in its compliance filing to this decision.*
19 *(Paragraph 128)*

20 **AEY Response**

21 A reduction of \$7,000 in account 88800 has been reflected in the Schedule 5.1, line 21.

22

2016-2017 General Rate Application Phase I Compliance Filing – Board Order 2017-01

1 **Direction #9**

2 *In YUB-YECL-42, AEY was asked to explain the increases in each of the General*
3 *Accounts (Accounts 88800 and 88900). AEY provided an explanation for Accounts*
4 *88800 and 88900 in aggregate, but did not provide an explanation for each account*
5 *individually. In YUB-YECL-42, AEY did provide an explanation for \$32,000, which is*
6 *the total variance. AEY stated in the Application that, “Ongoing operational and*
7 *administrative activities are based on historic spending requirements which are then*
8 *adjusted for known changes in work to be completed in the forecast period.”*
9 *However, the Board finds that \$14,000 of the increase from 2015 to 2016 has not*
10 *been sufficiently explained. In this case, using inflation and a three-year average of*
11 *costs is duplicative as no specific programs or needs have yet been identified.*
12 *Therefore, the Board directs that the \$14,000 be removed from the 2016 forecast*
13 *value of “Other” for the aggregate of these accounts (88800 and 88900), with \$7,000*
14 *being removed from Account 88800, and \$7,000 being removed from Account*
15 *88900. The revised balance approved by the Board for 2016 “Other”, (Account*
16 *88900) is \$143,000, and the approved 2017 balance for “Other” (Account 88900) is*
17 *\$146,000. Both balances are subject to changes in the Board-approved inflation*
18 *rates. AEY is directed to reflect these changes in its compliance filing to this decision.*
19 *(Paragraph 130)*

20 **AEY Response**

21 A reduction of \$7,000 in account 88900 has been reflected in the Schedule 5.1, line 22.

22

2016-2017 General Rate Application Phase I Compliance Filing – Board Order 2017-01

1 **Direction #10**

2 *The three-year average (2013-2015) for “Other” for Account 72100 is \$1,426,000.*
3 *The Board finds that it is reasonable to use the three-year average for this account.*
4 *\$1,426,000 is the base amount for this account to which inflation is to be applied.*
5 *Besides inflation, AEY has not provided an explanation for the increase in “Other”*
6 *costs between 2015 and 2016 and has not justified a different starting base amount*
7 *for this account. Therefore, starting from the \$1,426,000 base amount, the Board has*
8 *calculated the 2016 forecast value for this account to be \$1,455,000. For 2017, the*
9 *forecast value is \$1,483,000. AEY is directed to reflect these changes in its*
10 *compliance filing to this decision. (Paragraph 134)*

11 **AEY Response**

12 As directed, AEY has reflected the changes in the Schedule 5.1. The change in the base
13 amount to be inflated has resulted in a decrease of \$101,000 in both 2016 and 2017.

14 **Direction #11**

15 *For the purpose of calculating AEY’s depreciation expense for 2016 and 2017, any*
16 *corrections identified by AEY during the course of the proceeding, or directions made*
17 *elsewhere in this decision, including those with respect to capital additions, are to be*
18 *incorporated by AEY. AEY is directed to incorporate these changes in its compliance*
19 *filing to this decision and its final determination of depreciation expense. (Paragraph*
20 *163)*

21 **AEY Response**

22 As per Schedule 7.2 and Schedule 7.3, AEY has corrected the opening balances as identified
23 throughout the proceeding:

		2016 Opening Balance	
		As Filed	Correction
422 00	Hydro Structures	1,907	2,189
423 00	Hydro Resv, Dams & Waterways	2,203	4,964
425 00	Hydro Generators	5,153	1,989
426 00	Hydro Accessory Electrical Equip	-	81
427 00	Hydro Misc Equip	27	68
Total Production - Hydro		9,291	9,291

2016-2017 General Rate Application Phase I Compliance Filing – Board Order 2017-01

1 Depreciation expense increased by \$1,000 in 2016 and decreased by \$1,000 in 2017 as a result
2 of this change.

3 **Direction #12**

4 *The Board considers that consistent with AEY's depreciation expense calculations*
5 *for all other accounts, it is necessary for AEY to incorporate the use of the mid-year*
6 *convention for Account 493 — Demand Side Management. AEY is directed to revise*
7 *its depreciation expense calculation for Account 493 — Demand Side Management*
8 *to reflect a half-year depreciation expense in 2016 for current year capital additions*
9 *in its compliance filing to this decision. (Paragraph 167)*

10 **AEY Response**

11 In Schedule 7.2, AEY has applied half-year depreciation expense in 2016 for DSM additions.
12 This has resulted in a \$53,000 increase to depreciation expense for 2016 and a \$5,000
13 decrease to return and income tax for 2017.

14 **Direction #13**

15 *The Board considers it would be a simple matter for AEY to have revised Schedule 7-4 to be*
16 *consistent with the approvals stemming from Board Order 2014-06 and doing so would have*
17 *avoided unnecessary confusion as to whether the reserve difference amounts complied with*
18 *Board directions. The Board directs AEY in its future applications, to ensure all supporting*
19 *schedules filed are consistent with and reflective of Board Orders. (Paragraph 172)*

20 **AEY Response**

21 AEY will address this direction in future GRAs.

22 **Direction #14**

23 *However, in reviewing the AEY response to YUB-YECL-73, the Board notes that*
24 *actual issue dates for bonds in the years 2011 to 2015 generally occurred before*
25 *November of the year of issuance. Given that 2016 bonds have been issued before*
26 *the release of this decision, the Board directs AEY to use the actual cost of debt for*
27 *2016 and to reflect this change in its compliance filing to this decision.*
28 *(Paragraph 237)*

2016-2017 General Rate Application Phase I Compliance Filing – Board Order 2017-01

1 **AEY Response**

2 AEY has reflected the actual 2016 cost of debt of 3.8% in the Schedule 8.3. The updated cost of
3 debt increased by \$1,000 in 2016 and \$2,000 in 2017.

4 **Direction #15**

5 *As the Board cannot ascertain how AEY determined its credit spread of 1.80 percent,*
6 *the Board will use the average of credit spreads for the 2011-2016 period. AEY is*
7 *directed in its compliance filing to this decision to provide an updated table similar to*
8 *that provided in response to YUB-YECL-73(a) and to update that table to include*
9 *2016 actual numbers. In addition, AEY is directed to use the average of the credit*
10 *spreads for the years 2011-2016, each year given equal weighting, to calculate the*
11 *credit spread for 2017. The calculated credit spread for 2017 will be added to the*
12 *updated long Canada bond rate of 2.22 percent and the issue costs of 0.05 percent*
13 *to determine the cost of debt for 2017. The Board accepts the revised long Canada*
14 *bond rate proposed by AEY for 2017. AEY is directed to reflect these changes in its*
15 *compliance filing to this decision. (Paragraph 240)*

16 **AEY Response**

17 AEY has prepared a table similar to that provided in response to YUB-YECL-73(a) and has
18 determined the 2017 forecast using the Canada Bond Rate of 2.22 percent and a five year
19 average issue spread inclusive of 0.05% issue costs.

	2011 Actual	2012 Actual	2013 Actual	2014 Actual
Issue Date	24-Oct-2011	14-Nov-2012	9-Sep-2013	2-Sep-2014
Maturity Date	24-Oct-2041	14-Nov-2052	9-Sep-2043	2-Sep-2044
Long Canada Bond	2.943%	2.357%	3.172%	2.645%
Issue Spread	1.637%	1.533%	1.589%	1.475%
Debenture Rate	4.580%	3.890%	4.761%	4.120%
Debenture Amount	\$ 5,000,000	\$ 4,000,000	\$9,400,000	\$7,900,000

2016-2017 General Rate Application Phase I Compliance Filing – Board Order 2017-01

	2015 Actual	2016 Actual	2017 Forecast
Issue Date	27-Jul-2015	17-Nov-2016	1-Nov-2017
Maturity Date	27-Jul-2045	17-Nov-2046	1-Nov-2057
Long Canada Bond	2.234%	2.193%	2.220%
Issue Spread	1.767%	1.606%	1.601%
Debenture Rate	4.001%	3.799%	3.821%
Debenture Amount	\$ 750,000	\$7,400,000	\$6,900,000

1 The updated 2017 cost of debt has been incorporated in the Schedule 8.3. This update has
2 resulted in \$9,000 decrease in cost of debt for 2017.

3 **Direction #16**

4 *Considering the above and AEY's submission that it files KPI reports on an annual basis, the*
5 *Board directs AEY to file on the record of its next GRA, the KPI reports that have been filed*
6 *with the Board after the record closed in this proceeding. The Board further directs AEY, in*
7 *its next GRA, to include with the list of improvement projects the reasons for the system*
8 *deficiency — supported by the KPI filings — that form the basis of the project and the*
9 *resulting costs. Moreover, AEY is directed to provide a sample report referred to in the*
10 *quotation above in its next GRA, and to point out and clarify the project expectations — i.e.*
11 *the expected system performance improvement(s) — that AEY expects will be affirmed by*
12 *future KPI filings. (Paragraph 278)*

13 **AEY Response**

14 AEY will address this direction in future GRAs.

15 **Direction #17**

16 *Accordingly, the Board directs that all capital costs associated with the end-of-life*
17 *streetlight conversions be treated as a system cost (Paragraph 292).*

18 **AEY Response**

19 As directed, capital costs associated with end-of-life streetlight conversion will be treated as
20 system cost.

2016-2017 General Rate Application Phase I Compliance Filing – Board Order 2017-01

1 **Direction #18**

2 *With respect to LED streetlight installations that are not conversions, the Board*
3 *directs AEY to treat the costs related to new installations or requested conversions*
4 *as capital costs that attract a full customer contribution in aid of construction*
5 *(Paragraph 293).*

6 **AEY Response**

7 As directed, AEY will treat new installations or requested conversions as capital costs that
8 attract a full contribution in aid of construction.

9 **Direction #19**

10 *For the above reasons, the Board is not convinced that the benefits and costs are*
11 *sufficiently supported to approve the project, and therefore denies the Watson Lake*
12 *bi-fuel conversion project. AEY is directed to remove the bi-fuel conversion costs*
13 *from its forecast capital additions in the compliance filing to this decision.*
14 *(Paragraph 354)*

15 **AEY Response**

16 AEY has removed the \$2,759,000 of capital cost related to the Watson Lake Bi-Fuel project in
17 2017. This has decreased both the Total Capital Expenditures (Schedule 9.1, line 28) and
18 Capital Additions to Rate Base (Schedule 9.1, line 31) by this amount.

19 As a result of the reduction to Capital Additions, depreciation expenses for 2017 also decreased
20 by \$47,000.

2016-2017 General Rate Application Phase I Compliance Filing – Board Order 2017-01

1 **Direction #20 to Direction #21**

2 *The Board accepts AEY's test period forecast costs because this is an ongoing replacement*
3 *project. However, because the scope of the project has not been finalized, AEY is directed to*
4 *provide an updated business case in its next GRA. (Paragraph 384)*

5 *If AEY's proposal for alternative 2 (a hybrid system) is explored and is to be implemented,*
6 *the Board directs AEY to include in its updated business case any revised forecast costs and*
7 *cost savings. (Paragraph 385)*

8 **AEY Response**

9 AEY will address these directions in future GRAs.

10 **Direction #22**

11 *The Board considers these studies premature and denies cost recovery or deferral*
12 *treatment for any costs related to a Renewable and Alternative Energy Feasibility*
13 *study and directs AEY to remove forecast expenditures and cost recovery related to*
14 *its proposals in its compliance filing to this decision. (Paragraph 448)*

15 **AEY Response**

16 AEY has removed the Renewable and Alternative Energy Feasibility Deferral Account from the
17 Schedule 8.8, line 8.

18 **Direction #23**

19 *Similar to its views respecting the Renewable and Alternative Energy Feasibility*
20 *Study discussed previously, the Board considers a Joint Smart Grid Study to likewise*
21 *be premature and denies cost recovery or deferral treatment for any costs related to*
22 *a Joint Smart Grid study. The Board directs AEY to remove forecast expenditures*
23 *and cost recovery related to its proposals in its compliance filing to this decision.*
24 *(Paragraph 456)*

25 **AEY Response**

26 AEY has removed the Smart Grid Study Deferral Account from the Schedule 8.8, line 20.

2016-2017 General Rate Application Phase I Compliance Filing – Board Order 2017-01

1 **Other Direction #1**

2 **(Not included on Summary)**

3 *The Board accepts Mr. Maissan's recommendation that recovery of the Watson Lake*
4 *study costs and development costs forecast in the amount of \$494,000 should be on*
5 *the basis of an amortization period of five years. This period of time is consistent with*
6 *that used for the recovery of the DSM program study costs. The Board finds this to*
7 *be a reasonable approach for the recovery of the Watson Lake bi-fuel study costs.*
8 *(Paragraph 429)*

9 **AEY Response**

10 As per Schedule 8.8, AEY has reflected a five year amortization period for recovery of the costs
11 related to Watson Lake LNG Study Costs.

12 **Other Direction #2**

13 **(Not included on Summary)**

14 *Therefore, the Board approves an ROE of 9.00 percent for AEY for both test years.*
15 *AEY is to reflect this changes in its compliance filing to this decision.*
16 *(Paragraph 221)*

17 **AEY Response**

18 As per Schedule 8.1, lines 33 and 38, the ROE for each of the test years has been adjusted to
19 9.00%.

Operations and Maintenance Expenses
(\$000s)

Line No.	Description	Cross Ref.	Actual 2013	Actual 2014	Actual 2015	Test Period	
						2016	2017
1	Production						
2							
3	<u>62600 - Hydro Generation</u>	S.5.1 L.2	199	233	261	273	263
4							
5	Costs increase from 2013 to 2014 mainly due to higher costs for Fish Lake monitoring						
6	and licence requirements (\$31) and inflation (\$5).						
7							
8	Costs increase from 2014 to 2015 mainly due to lower vacancy (\$24) and inflation (\$7).						
9							
10							
11	<u>64600 - Diesel Generation</u>	S.5.1 L.4	364	413	445	493	502
12							
13	Costs increase from 2013 to 2014 mainly due to the full year impact of filling previously vacant						
14	positions (\$26) and inflation (\$10).						
15							
16	Costs increase from 2015 to 2016 mainly due to inflation.						
17							
18							
19	<u>84600 - Diesel Maintenance</u>	S.5.1 L.6	1,020	907	1,148	1,147	1,063
20							
21	Costs increase in 2014 to 2015 mainly due to more scheduled top end maintenance in 2015						
22	than prior year (\$205) and inflation (\$23).						
23							
24							
25	Distribution						
26							
27	<u>87100 - Brushing</u>	S.5.1 L.10	420	268	437	413	421
28							
29	Costs increase from 2014 to 2015 mainly due to completion of regular brushing program. Prior year						
30	costs were lower due to the availability of resources.						
31							
32							
33	<u>87400 - Underground Line Maintenance</u>	S.5.1 L.14	156	111	143	150	153
34							
35	Costs increase from 2014 to 2015 mainly due to increased maintenance requirements as identified						
36	by regular line patrols, offset by lower overhead costs in 87300.						
37							
38							
39	<u>87800 - Street Light Maintenance</u>	S.5.1 L.17	238	252	203	248	254
40							
41	Cost increase from 2015 to 2016 mainly due to increased streetlight maintenance and						
42	repair activity, based on historical averages as well as inflation.
