

Yukon Utilities Board

September 6, 2017

To: All Parties
Atco Electric Yukon GRA Proceeding

All Parties:

Request for Comments on Phase 1 of Application to Review and Vary Board Order 2017-07 by the Utilities Consumers' Group (UCG)

On August 31, 2017, the Yukon Utilities Board (Board) received an application to review and vary Board Order 2017-07 from UCG in respect of its costs award for the AEY 2016-17 General Rate Application. UCG alleges that the Board erred in fact or law in its determination of the amount awarded to UCG on its costs application. The specific submissions are set out in the attached review application.

In accordance with section 31(3) of the Board's Rules of Practice, the Board uses a two-phase system for applications for review. In the phase 1 or the initial screening phase, the applicant must establish a prima facie case sufficient to warrant full consideration by the Board.

The Board is inviting the parties to the AEY 2016-17 GRA proceeding to comment on the UCG's application to review and vary for the first phase of the review. Comments are requested by October 2, 2017. UCG may reply to any comments received by October 18, 2017.

Sincerely,

Robert Laking
Chair
