February 21, 2014

Yukon Utilities Board
Box 31728
Whitehorse, Yukon Y1A 6L3

Attention: Mr. Bruce McLennan, Chair

Re: Yukon Energy Corporation – Application for an Energy Project Certificate and an Energy Operation Certificate regarding the Proposed Whitehorse Diesel to Liquefied Natural Gas Conversion Project – Hyperlinked Documents

Dear Mr. McLennan:

On February 17, 2014, the Yukon Utilities Board circulated a memo reminding parties that if parties include hyperlinks to documents not currently filed with the Board, the party must file electronically a PDF of the linked document. Our client, the Utilities Consumers' Group ("UCG") notes that Yukon Energy Corporation includes hyperlinks in its application but the PDF documents are not currently on the record of this current proceeding.

While UCG has submitted information requests related to the referenced U.S. Energy Information Administration; Annual Energy Outlook 2013 (page 41 of the application), UCG submits that the referenced document should be put on the record of this current proceeding.

YEC also makes reference (page 44 of the Application) to the project proposal, supplementary filings, project-related announcements from YESAB, and public comments received that are all available on the YESAB Online Registry (<http://www.yesab.tzo.com/wfm/launch/YESAB>) and the project proposal available on the YEC website (www.yukonenergy.ca). UCG submits that YEC should be directed to provide parties to this YUB proceeding with copies of all materials put on the record of the YESAB proceeding and any supplemental information that is on the YEC web site that is currently not on the record of this YUB proceeding.

UCG submits that this information should be provided to parties well in advance of the oral hearing.

Yours truly,

Michael Janigan
Counsel for UCG
