Whitehorse, Yukon Y1A 2C6

Dear Hon. Mr. Nixon:

**Re Report regarding YEC LNG Project proceeding**

The Yukon Utilities Board herewith presents its recommendations regarding its recent hearing into Yukon Energy Corporation's Whitehorse Diesel to Liquefied Natural Gas (LNG) conversion project proposal, referred as a regulated project under Part 3 of the *Public Utilities Act*. This proceeding was undertaken in response to your direction dated December 20, 2013.

The Board is of the opinion that the public benefit of the project is significant and that the project should be approved because there is a public need. For the reasons set out in the report, the Board is not recommending any conditions to the project.

The Board trusts that you will find its report adequately detailed with respect to this review of Yukon Energy Corporation's LNG project proposal.

Sincerely,

Bruce McLennan  
Chair
