

October 18, 2013

Mr. Bruce McLennan, Chair
Yukon Utilities Board
Box 31728
Whitehorse, Yukon
Y1A 6L3

Dear Mr. McLennan:

Re: Extension of filing date for the Application to Revise the Diesel Contingency Fund (“DCF”) & Related Amendments to the Energy Reconciliation Adjustment (“ERA”)

In correspondence from the Yukon Utilities Board (“YUB” or “Board”) dated July 16, 2013, Yukon Energy Corporation (“Yukon Energy” or “YEC”) was directed to submit a revised DCF application to the Board by no later than September 30, 2013. Yukon Energy was also directed to provide, if possible, a joint recommendation with Yukon Electrical Company Limited (“YECL”) on how the DCF will affect the ERA in Rate Schedule 42.

Yukon Energy and YECL subsequently wrote to the Board on September 23, 2013 requesting an extension of this filing deadline to October 31, 2013, and the Board in correspondence to the Companies dated September 25, 2013 granted an extension to November 15, 2013.

The YECL 2013-15 General Rate Application proceeding is currently underway with an oral hearing scheduled for November 4-6, 2013. The requested approvals in the YECL GRA Application include a request by YECL for the continuation of the diesel contingency fund mechanism, including Fish Lake hydro generation, as approved during the 1996/1997 and 2008/2009 GRAs (p. 3-2).

Given the separate process that is already in place to deal with the DCF (and related amendments to the ERA) Yukon Energy is writing to the Board to seek clarification and confirmation that matters related to the DCF and ERA be considered out of scope of the current YECL GRA process.

If you have any questions, please contact the undersigned.

Yours truly,
