Mr. R. Buchan,
Chair, Yukon Utilities Board

This email is to request that the Yukon Utilities Board issues an order immediately to compel ATCO Electric Yukon to provide a full and complete answer to IR AEY-JM-1-3. Contrary to AEY's assertion that their (over)earnings are not relevant to this application they are indeed central to and have caused this application. It has been the public and political pressure applied to AEY on their overearnings that has forced them into dealing with this situation with this and so it is most appropriate that they are forthcoming in providing the relevant information in the format requested.

Thank you.

John Maissan
