**Re: ATCO Electric Yukon 2023-2024 General Rate Application
Schedule & Procedural Matters**

For the reasons outlined below, ATCO Electric Yukon (AEY) is requesting minor modifications to the process schedule established by the Yukon Utilities Board (Board) for this Proceeding in Board Order 2023-13 (the Order).

AEY respectfully requests that the Board adjust the process schedule in accordance with the proposal below due to unanticipated delays with the completion of AEY's Depreciation Study and to accommodate the availability of key resources involved in this proceeding. While AEY is working diligently with the consultants engaged on the Depreciation Study, the study is not expected to be completed in time for the current August 31, 2023, filing deadline. In addition, key personnel involved in AEY's Application are preparing for and participating in oral hearings in another jurisdiction over the course of the next several weeks such that AEY requires additional time to complete certain of the process steps in the existing process schedule.

Accordingly, AEY requests that the process schedule be revised as follows to address the scheduling issues identified above:
