**Re: ATCO Electric Yukon
2023-2024 General Rate Application**

On July 14, 2023, the Yukon Utilities Board (YUB) issued Board Order 2023-13 outlining the Process Schedule respecting ATCO Electric Yukon's (AEY) 2023-2024 General Rate Application submitted on July 7, 2023. While the YUB accepted certain steps as originally proposed by AEY, including a Procedural Conference dated for July 27, 2023, the YUB did not accept AEY's request for a Negotiated Settlement Process (NSP) and included a Public Oral Hearing for the week of November 20 to 23, 2023.

Based on the new process schedule and considering that the GRA will now include a full process that allows parties to fully review and test the application, AEY respectfully requests to remove the Procedural Conference, dated for July 27, 2023, from the process schedule. As outlined in AEY's letter dated July 7, 2023, the purpose of the proposed event was to provide clarifications, in light of the request to limit Information Requests, and to assess and discuss procedural matters for the proposed NSP. AEY requires to provide its Notice of Application advertisement to newspaper editors by the afternoon of July 19, 2023. As such, AEY kindly requests that the YUB reply to this request before 10:00 am of July 19, 2023.

Should you have any questions, please contact the undersigned at Elizabeth.Rogers@atco.com.

Yours truly,

Beth Rogers, CPA CMA
Director, Regulatory
