**Attention: Richard Buchan
Chair**

**Re: ATCO Electric Yukon (AEY) 2023-2024 General Rate Application (GRA)
Response to Board Order 2023-24 – Extension Request**

On October 19, 2023, the Yukon Utilities Board (YUB) issued Board Order 2023-24¹ directing ATCO Electric Yukon (AEY) to provide further and better responses to the Information Requests (IRs) identified in Appendices A and B attached to the Board Order by October 24, 2023.

While AEY is prepared to provide further and better responses to the IRs, AEY notes that the YUB's request to provide a separate document referencing the location (PDF page number) of the hyperlink will take additional time. In addition, AEY is currently working under tight timelines to respond to over 100 IRs respecting the Depreciation parameters portion of the GRA that are also due on October 24, 2024, and does not have the staff resources to complete the further and better IR responses in the requested timeframe. For these reasons, AEY kindly requests that the YUB grant AEY an extension to provide further and better IR responses by October 27, 2023.

Should you have any questions, please do not hesitate to contact the undersigned at Elizabeth.Rogers@atco.com.

Yours truly,

Beth Rogers
Director, Regulatory
