YUKON UTILITIES BOARD

ORDER

1986-2

June 18, 1986

IN THE MATTER of a special application
by the Yukon Electrical Company Limited
for a change in rates being charged to
all customers (except those on diesel
generation) due to purchased power
increases.

ORDER

Background:

On June 10, 1986 Northern Canada Power Commission indicated to the Yukon Electrical Company Limited that effective with all meter readings taken on and after July 16, 1986, all purchased power will increase by 5%.

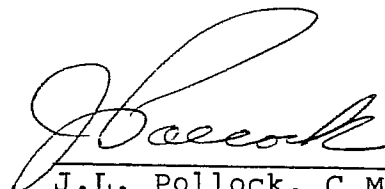

Yukon Electrical Company Limited filed with the Board a special application dated June 13, 1986 for approval of the pass through of purchased power increases.

As Northern Canada Power Commission reads Yukon Electrical Company Limited's meters June 25, 1986 this will mean the new Northern Canada Power Commission rates will apply to all Yukon Electrical Company Limited consumption on or after June 26, 1986, except Keno City which has an effective date of July 1, 1986.

Decision:

The Board approves Yukon Electrical Company Limited's special application and directs the Company to adjust rates for their customers upwards as below:
