Re: Board Order 2007-4 Request for The Yukon Electrical Company Limited (Yukon Electrical) to be granted intervener status in The Yukon Energy Corporation's "Application for an Energy Project Certificate and an Energy Operation Certificate regarding the Proposed Carmacks-Stewart Transmission Project"

As requested in Board Order 2007-4, Yukon Electrical requests the Board to grant Yukon Electrical intervener status in the aforementioned application.

It is Yukon Electrical's understanding and as outlined in YEC's March 13, 2007 letter to the Yukon Utilities Board and the March 20, 2007 letter from the Minister of Justice to the Board, that at this time, YEC is only seeking an Energy Project Certificate and an Energy Operation Certificate regarding Stage I of the Carmacks-Stewart Transmission Project. YEC has indicated that Stage 2 will be the subject of a separate later review by the Board. As such, and as requested in Board Order 2007-4, Yukon Electrical intends to pursue those issues identified in Paragraph "K" of the Board's Order. Subject to reviewing the Board's Order regarding the Minto PPA, Yukon Electrical does not intend on pursuing this matter further in this proceeding.

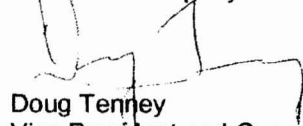

Yukon Electrical also confirms that it will utilize the services of Bennett Jones LLP and specifically Mr. Loyola Keough of Bennett Jones. Mr. Keough has appeared before the Board on numerous occasions and his qualifications are well known to the Board. A retainer letter is also attached as requested in the Board Order.

Yukon Electrical cannot determine at this time, whether it will file any evidence in this proceeding until the responses to Information Requests are received and accordingly, reserves the right to do so if the circumstances warrant such a filing.

Please accept this letter as confirmation Yukon Electrical will attend the May 15, 2007 Hearings.

Yours Sincerely,
