Attention: Deana Lemke, Board Secretary

**Re: The Yukon Electrical Company's Intervenor Cost Award Claim regarding the Yukon Energy Corporation's Part III Application on the Carmacks-Stewart Transmission Project**

Dear Ms. Lemke:

Pursuant to section 56 of the Public Utilities Act, the Board's Rules of Practice and the Board's Intervenor Costs Award Policy established on June 3, 2005, Yukon Electrical hereby makes application to be awarded costs incurred as part of the above noted proceeding.

As Yukon Electrical is the primary electrical distributor of wholesale and secondary energy supplied by Yukon Energy, Yukon Electrical actively participated in the Part III Application process. Specific areas of involvement include the following:

- Review of all applicable material included with YEC's 20 Year Resource Plan and Hearing,
- Review of YEC's Part III Application,
- Interrogatories to YEC,
- Attendance at the Part III Hearing, and
- Oral Argument.

Yukon Electrical's interrogatories and Oral Argument largely focused on the following areas:

- LOLE and N-1 Planning Criteria,
- Impact of Capital Cost Overruns on the Financial Viability of Stage One,
- WAF Customer Power Quality and Need for YEC To Adopt Dynamic System Power Quality Standards,
- Need for Stage Two of the CSTP, and
- Timing of Aishihik Third Turbine.

As evidenced by the above noted areas of focus, it is Yukon Electrical's position that its intervention was clearly for the benefit of ratepayers and was not predicated on a "sole business interest".

In summary, Yukon Electrical's cost claim is as follows:

Total costs incurred by Yukon Electrical	\$855.20	100%
Amounts in excess of \$225/hr. cap	<u>(\$525.00)</u>	<u>61%</u>
Net cost claim	\$330.20	39%
GST	<u>\$ 19.81</u>	
Net cost claim submission	\$350.01	

The costs incurred and submitted by Yukon Electrical relate exclusively to the regulatory legal support provided by Mr. Loyola Keough of Bennett Jones and do not reflect any time or expenses incurred by Yukon Electrical staff as a result of their involvement in the Part III Application process.

In support of Yukon Electrical's cost award claim of \$350.01, we include the following:

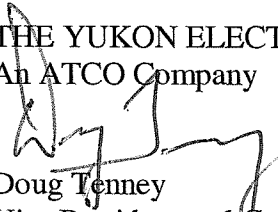

- Attachment 1 – Affidavit in support of the claim
- Attachment 2 – Summary of gross and net claimed third party fees and expenses
- Attachment 3 – Copies of all supporting invoices

On a final note, if the Board should disallow all or a portion of the \$5,784.96 + GST cost claim submission relating to our participation the 20 Year Resource Plan, Yukon Electrical respectfully submits that the disallowed portion of the \$5,784.96 be included with this cost claim. The time and expenses incurred during the 20 Year Resource Plan were a necessary precursor to the work completed on the Part III application.

If you should have any questions with respect to the above, please do not hesitate to contact me at your earliest convenience.

Yours truly,

THE YUKON ELECTRICAL COMPANY LIMITED  
An ATCO Company
