**Re: Quarterly Adjustment to Secondary Sales Rates as of January 1, 2023**

---

Pursuant to Rate Schedule 32 Secondary Energy (as approved in Board Order 2005-12), the following sets out the quarterly adjustment to the Secondary Energy rate effective for consumption on or after January 1, 2023.

***January 1, 2023 Rate Determination***

As outlined in Rate Schedule 32, the Secondary Energy rate for January 1, 2023 is based on the published Yukon Bureau of Statistics biweekly price for Furnace Oil in Whitehorse for the three reporting periods prior to the 20th day of November 2022. The lowest value of the three (net of GST) is the "Oil Price Index" for rate determination. The three reported values (including GST) are as follows:

September 21, 2022 = \$1.946 /litre  
October 5, 2022 = \$2.041 /litre  
October 19, 2022 = \$2.242 /litre

Consequently, the Oil Price Index for the January 1, 2023 rate is 185.33 cents/litre (the September 21, 2022 value of 194.6 cents/litre less the GST included in that value). An Oil Price Index of 185.33 cents/litre equals a Secondary Energy rate of 12.9 cents/kWh (compared to the October 1, 2022 rate of 13.1 cents/kWh) and results in a Rate Schedule 43 Wholesale Secondary energy rate of 11.8 cents/kWh (compared to the October 1, 2022 revised rate of 12.0 cents/kWh).

***Notification of Interested Parties***

Rate Schedule 32 provides that the Secondary Energy Charge is to be filed with the Board at least 30 days in advance of the Rate Period. As with past notifications regarding the rate change, Yukon Energy is providing notice to ATCO Electric Yukon (AEY) at the same time as this notice is sent to the Board. Secondary Sales Retail customers will be notified by a billing advisory message on their monthly bill when their retail account is actively in service.

***Current Status of Secondary Sales***

Currently, secondary sales are being ceased to maintain water storage for the winter season.
