Re: Quarterly Adjustment to Secondary Sales Rates as of October 1, 2023

Pursuant to Rate Schedule 32 Secondary Energy (as approved in Board Order 2005-12), the following sets out the quarterly adjustment to the Secondary Energy rate effective for consumption on or after October 1, 2023.

Rate Determination

As outlined in Rate Schedule 32, the Secondary Energy rate for October 1, 2023 is based on the Yukon Bureau of Statistics biweekly price for Furnace Oil in Whitehorse for the three reporting periods prior to the 20th day of August 2023. The lowest value of the three (net of GST) is the "Oil Price Index" for rate determination. The three reported values (including GST) are as follows:

July 12, 2023 = \$1.678 /litre
July 26, 2023 = \$1.716 /litre
August 9, 2023 = \$1.893 /litre

Consequently, the Oil Price Index to be used for the October 1, 2023 rate is 159.81 cents/litre (based on the lowest furnace oil price for three reporting periods - July 12, 2023 value of 167.8 cents/litre less the GST included in that value). An Oil Price Index of 159.81 cents/litre equals a Secondary Energy rate of 11.2 cents/kWh (compared to the July 1, 2023 rate of 11.7 cents/kWh) and results in a Rate Schedule 43 Wholesale Secondary energy rate of 10.1 cents/kWh (compared to the July 1, 2023 rate of 10.6 cents/kWh).
