

Please see attachment and UCG responses to YUB irs as well. For some reason i cannot get the correct attachment to read so here it is below.

YUKON ELECTRICAL COMPANY LIMITED

2008/09 GENERAL RATE APPLICATION

CITY OF WHITEHORSE INFORMATION REQUESTS NO.1 TO UCG

CW-UCG-1

Issue: Rate of Return and Capital Structure

Reference: UCG Evidence

Preamble: CW wishes to gain a better understanding of the Evidence filed

Request:

- (a) Who is the author or authors of this material?
- (b) Will the UCG provide a witness to defend this evidence at the hearing? If so please identify the witness and provide a resume or CV for the witness, summarizing his or her training and experience.
- (c) Please summarize the position of the UCG on the issues of rate of return and capital structure, as supported by the evidence the UCG has filed.

Response:

- (a) Please reference front page of workshop power point presentation document presented as evidence....Dr. Morin is author.
- (b) No. Dr. Morin's credentials are also listed on front page.
- (c) UCG's position is to have these methodologies identified to examine each so as to set a range for rate of return and captital structure in order to determine a reasonable and fair ROE for the YECL .

UCG has no particular preference for any of these particular methods presented by Dr. Morin and Dr. Kalymon, only that each of these scenarios should be given proper scope and exploration during cross-examination in the hearing process. Presenting these

YUKON UTILITIES BOARD
