Mr. Robert Laking YUB Chair,

In your correspondence dated September 22, 2017 you requested comments on 4 matters. Since I have not followed all of the details of Yukon Energy's appeal of decision 2015-06 and the court proceeding, I am only prepared to comment on the matter numbered "(2)" in the correspondence. It is my strong preference that the GRA proceeding continue as per the schedule laid out by the Board. I would hope that Yukon Energy would be able to advise the Board and all parties of any amendments required, and to provide such amendments, in a timely fashion to enable the schedule to be kept. There are important matters to be decided in this GRA and delays would not be in the interest of the public. In the other matters I defer to Yukon Energy and those who have followed the matter in detail.

Regards,

John Maissan
