

January 17, 2024

Mr. Richard Buchan, Chair  
Yukon Utilities Board  
Box 31728  
Whitehorse, Yukon Y1A 6L3

Dear Mr. Buchan:

**Re: Yukon Energy's 2023/24 GRA – YUB Order 2023-25**

---

Further to our letter dated January 4, 2024, Yukon Energy Corporation (YEC) writes to provide further and better responses to Information Requests YUB-YEC-1-11(a) and YUB-YEC-1-35(e) and (f) of the Yukon Utilities Board (Board or YUB), including the Board's eight follow-up questions concerning YUB-YEC-1-35, in accordance with the directions given by the Board in Appendix A of Order 2023-25.

YEC also provides further revised responses to Information Requests NY-YEC-1-4 REVISED and NY-YEC-1-14 REVISED that were previously filed with the Board on January 4, 2024 in accordance with Appendix B of Order 2023-25, as follows:

1. NY-YEC-1-4(a) and (b) REVISED – The references in this IR response to maintaining rental operational hours “under 500 hrs/28 days allowance as per contract” are corrected to say “under 500 hrs/season allowance as per contract.”
2. NY-YEC-1-14(a) REVISED Attachment 2 – This revised IR response is refiled to add a copy of the FGS site layout that shows the location of all site generators to Attachment 2, in response to Mr. Yee's January 5, 2024 request.

In paragraph 12 of Appendix A of Order 2023-25, the Board also asked YEC to provide detailed tables in response to a series of additional questions posed in YUB-YEC-2-001 about the WH2 Uprate Project, the WH4 Servomotor Replacement Project and the Enterprise Asset Management Purchase & Implementation Project. YEC is in the process of completing the detailed tables requested by the Board; however, as communicated previously to Board counsel, we will require a brief time extension to do so.

YEC respectfully requests a one-week time extension to provide its response to YUB-YEC-2-001 by January 25, 2024.

Yours truly,

Jason Epp,  
Vice President, Finance and CFO
