

Yukon Energy Corporation 2021 BESS Project
Information Requests of YEC

Information Requests from Yukon Conservation Society

YCS-YEC-1	<p>Re: Ambient conditions required for life of battery:</p> <p>a) Will it be requested of the vendor during the procurement process to provide details on maintaining ambient conditions for the battery given a range of temperatures? (i.e. heating and cooling of battery containers to maximize life, minimize degradation of batteries)</p>
YCS-YEC-1 Response	
YCS-YEC-2	<p>Re: Procurement Process: Raw Materials:</p> <p>a) Will the vendor be responsible for disclosing that raw materials for the batteries (i.e. Lithium) were sourced in an ethical manner?</p>
YCS-YEC-2 Response	
YCS-YEC-3	<p>Re: Disposal of batteries at end of life:</p> <p>a) Will the vendor be responsible for disposal of the batteries at the end of life of the equipment?</p> <p>b) If so, will they be bonded to the project for the duration of the project lifespan?</p>
YCS-YEC-3 Response	
YCS-YEC-4	<p>Re: Property tax operational expenses:</p>

	<p>a) Did a meeting take place with the City of Whitehorse regarding property taxes for the land used for the project?</p> <p>b) If so, what were the results of this discussion?</p>
YCS-YEC-4-Response	
YCS-YEC-5	<p>Re: Opportunities for improved battery technology given recent developments in battery technology:</p> <p>a) Would integrating new batteries at the 10-year mark of the project decrease the lifespan of the existing batteries?</p>
YCS-YEC-5 - Response
