

**Undertaking # 2 at Page 102, line 4-5**

Undertaking to provide a to provide a copy of the Transgrid study.

**Yukon Energy Response:**

The Transgrid Study referenced at transcript page 102 is provided as Attachment 1 to this undertaking.

Appendix 5.19  
Evaluation of Energy Storage  
Technologies  
(Transgrid Solutions 2016)

---

Engineering Support Services for:

## Energy Storage Technologies

Yukon Energy Corporation

Attention:

Mr. Marc-Andre Lavigne

Report R1382.01.01

## Evaluation of Energy Storage Technologies

Prepared by:

**TransGrid Solutions Inc.**

200 – 150 Innovation Dr.

Winnipeg, MB R3T 2E1

CANADA

## Table of Contents

|  |           |
|--|-----------|
| <b>Executive Summary .....</b>                                   | <b>iv</b> |
| <b>1. Introduction .....</b>                                     | <b>1</b>  |
| <b>2. Scope of Work .....</b>                                    | <b>2</b>  |
| 2.1 Literature Review .....                                      | 2         |
| 2.2 Cost Estimation/Project Schedules/Footprints .....           | 2         |
| 2.3 Risks and Show stoppers .....                                | 2         |
| <b>3. Yukon Energy Load Profile .....</b>                        | <b>3</b>  |
| <b>4. Energy Storage Technologies .....</b>                      | <b>6</b>  |
| 4.1 Mechanical .....   | 7         |
| 4.2 Chemical .....   | 11        |
| 4.3 Electrochemical .....  | 12        |
| 4.4 High Temperature Batteries .....                             | 18        |
| 4.5 Electrical Field .....                                       | 29        |
| 4.6 Magnetic Field .....   | 31        |
| 4.7 Thermal .....  | 33        |
| <b>5. Comparison of Energy Storage Technologies .....</b>        | <b>35</b> |
| 5.1 Determining the Energy Storage System Power and Rating ..... | 38        |
| <b>6. Cost Estimates, Schedule, and Footprints .....</b>         | <b>41</b> |
| 6.1 Battery Energy Storage System Components and Footprint ..... | 41        |
| 6.2 Development of Cost Schedule .....                           | 49        |
| 6.3 System Cost vs Utilization Sensitivity Study .....           | 53        |
| 6.4 Generation of high level project schedule .....              | 54        |
| 6.5 Environmental and Societal Considerations .....              | 55        |
| 6.6 Spinning Reserve .....                                       | 56        |
| <b>7. Conclusions .....</b>                                      | <b>57</b> |
| <b>8. References .....</b>                                       | <b>59</b> |

## Table of Figures

|  |    |
|--|----|
| Figure 1 Yukon Energy Power Generation and Transmission System ..... | 3  |
| Figure 2 Yukon Energy Load Forecast .....                            | 4  |
| Figure 3 Hydro and Diesel Generation for 2015 .....                  | 5  |
| Figure 4 Classifications of Energy Storage Systems .....             | 6  |
| Figure 5 Cutaway of a Typical Pumped Storage System .....            | 7  |
| Figure 6 Diagram of a Compressed Air Storage System .....            | 8  |
| Figure 7 Flywheel Cross Section. ....                                | 10 |
| Figure 8 Lead Acid Storage Cell.....                                 | 12 |
