Hello,

I saw a notice on Facebook that ATCO is requesting approval to raise rates again. Please please please, tell them where to stick their stupid ideas. The rates are already obscene and a few years back their profits exceeded their legislated limit. Given the political and economic climate, I'm very concerned about the impact on everyone, and especially low income families. Your responsibility is to keep ATCO's rates and practices to be in line with the best interests of Yukoners.

Respectfully,
Monique Benoit
