BOARD ORDER 2018-06

WHEREAS:

A. On May 4, 2018, The Yukon Utilities Board (Board) issued Board Order 2018-05. In that Order, the Board approved the Energy Reconciliation Adjustment (ERA) as submitted by Yukon Energy Corporation (YEC) for the years 2012-2016 as final. The Board also approved the amended rate 42 Schedule as submitted by YEC.

B. On June 19, 2018 Yukon Electrical Company Limited, carrying on business as ATCO Electric Yukon (AEY), submitted an application to the Board to recover Purchase Power Flow Through Deferral Account (PPFTDA) costs (Application). AEY proposed that a Rider S bill adjustment to all retail and industrial customers be utilized to collect the PPFTDA costs of $501,000 that arose from YEC's ERA charges that were approved in Board Order 2018-05. AEY requested that the Rider S bill adjustment commence August 1, 2018 and continue to July 31, 2019. Rider S is proposed to be set as an energy charge at a rate of $0.0011 per kW.h.

C. AEY stated that future adjustment to Rider S could occur if YEC receives approval for adjustments to the wholesale rate or an ERA charge or if AEY, after reviewing its deferral account balance, finds that an adjustment is required.

D. To meet an August 1, 2018 implementation date for Rider S, AEY requested a decision from the Board by July 18, 2018.

NOW THEREFORE, the Board directs:

1. Since the Application is to collect the PPFTDA costs of $501,000 that arose from YEC's ERA charges approved in Board Order 2018-05, the Board does not intend to set out a process to test the Application.

2. Notwithstanding (1) above, any interested person may request that the Board set out a process to test this Application by filing specific comments on the need for a process by July 3, 2018. AEY may file reply comments by July 6, 2018.

3. If no comments are received, the Board anticipates making a determination on the Application without any process.

DATED at the City of Whitehorse, Yukon, this 22nd day of June 2018.

BY ORDER

Robert Laking
Chair
